

sTMS Interface Functional Specification

Nanyang Polytechnic – NYP CET Website

Version 1.0

Document Version

Version	Effective Date	Summary of Changes	Created/ Updated By
0.1	09/5/2022	The initial version of the NYP CET Website IFS	AvePoint
0.2	01/08/2022	Chapter 1: - Revise 1.1 Chapter 2: - Remove sTMS API Gateway and sTMS API Gateway Identity Service 2 roles. - Change API authentication to Anonymous. Chapter3: - Revise query launch parameter. Chapter4: - Remove 403 and 404 error, Add 400 bad request error. Chapter5: - Revise constraints in 5.2; Chapter6: - Update interface schema Chapter8: - Change JSON Sample file to swagger.json	AvePoint
0.3	22/08/2022	Use NYP Websites instead of (CET + ACI). Chapter 3 - Update 3.1.1 Scope parameter - Add PageSize filed in 3.1.1 - Add CourseDetailLink in 3.1.2.1 - Change Date Type "Object" to Array. Chapter 5 - Update 5.2 Items. Chapter 6 - Update Schema Chapter 8 - Update Swagger Json file	AvePoint
0.4	07/09/2022	Chapter 2.1: Update diagram and revise flow steps Add Chapter 2.2.1 Get Course Condition Interface Add Chapter 2.2.2 Get Course Info Interface Add Chapter 2.2.3 Query Course Info Interface Chapter 3.1.1: Update descriptions Add Chapter 3.2 Course Condition Chapter 4: Add 404 error code Chapter 5.2: Remove strikethrough items. Chapter 6: Update snapshots Chapter 8.2: Update swagger json file.	AvePoint
0.5	16/09/2022	Chapter 1.1 update on the Purpose of document Chapter 3.1: Update data length to max for some data fields.	AvePoint
0.6	22/09/2022	Chapter 3.1.3: Update data length to max	AvePoint
0.7	23/09/2022	Updates on Status description under Chapter 3.1.1 and Chapter 3.1.3	AvePoint
1.0	27/09/2022	Official version for acceptance and sign-off Revised based on NYP's comments and review.	AvePoint

1. Introduction

1.1 Purpose of this document

This Interface Functional Specification (IFS) is to provide the agreed baseline of communication requirements and detailed technical specifications between the SaaS shared Training Management System (sTMS) and Nanyang Polytechnic (NYP) Websites for active CET course-related information so that NYP websites can emulate the offerings shown on the sTMS Course Catalogue such that there will be no discrepancy between both.

NYP Websites can retrieve course information on demand by calling real-time API with specific query parameters. The public users would be able to view course listing from NYP websites. Public users who are interested in a particular course would be redirected to the specific course in sTMS website upon clicking "Read More" button to continue the user journey for detailed course information, application or registration for interest

1.2.Intended Audience

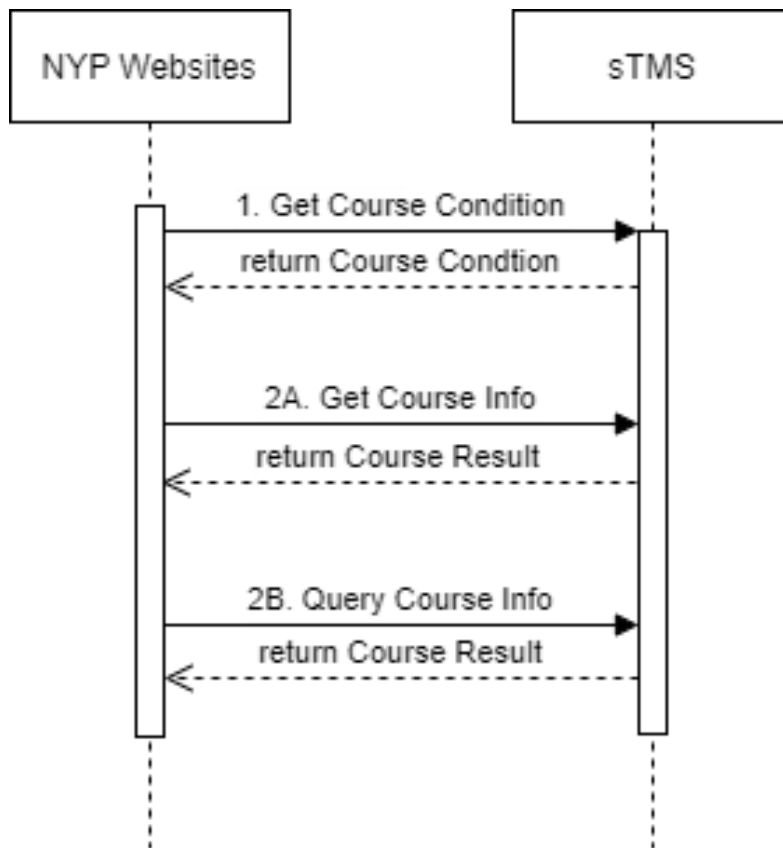

This technical document is used for system communication. Therefore, the intended audiences are the stakeholders of both sTMS and NYP websites.

2. Technical Overview

There are 2 roles involved in the interface diagram.

- **NYP Websites:** Nanyang Polytechnic Websites
- **sTMS:** Shared Training Management System.

2.1 System Flow

Step 1: NYP websites send http GET request to [Get Course Condition \[#2.2.1\]](#) that is applicable to NYP from sTMS. Get [Course Condition \[#3.2\]](#) retrieves the list of values for *Area of interest, Course type, Course category, Branch and School*.

Step 2A: NYP websites send http GET request to [Get Course Info \[#2.2.2\]](#) with [Launch parameters \[#3.1.1\]](#) in URL, sTMS return [Course Result \[#3.1.2\]](#) accordingly.

OR

Step 2B: NYP websites send http POST request to [Query Course Info \[#2.2.3\]](#) with query criteria in request body, sTMS return [Course Result \[#3.1.2\]](#) accordingly.

2.2 Interface Design Summary

2.1.1 Get Course Condition Interface

Interface Function	Get Course Condition
Hosting System	shared Training Management System
Data Source System	shared Training Management System
Data Destination System	Nanyang Polytechnic Websites
Mode of Interface	HTTP API
Method	GET
Content-Type	application/json
Frequency	Realtime
Encryption Method	HTTPS
Endpoint URL	<TBC>

2.1.2 Get Course Info Interface

Interface Function	Get Course Info
Hosting System	shared Training Management System
Data Source System	shared Training Management System
Data Destination System	Nanyang Polytechnic Websites
Mode of Interface	HTTP API
Method	GET
Content-Type	application/json
Frequency	Realtime
Encryption Method	HTTPS
Endpoint URL	<TBC>

2.1.3 Query Course Info Interface

Interface Function	Query Course Info
Hosting System	shared Training Management System
Data Source System	shared Training Management System
Data Destination System	Nanyang Polytechnic Websites
Mode of Interface	HTTP API
Method	POST
Content-Type	application/json
Frequency	Realtime
Encryption Method	HTTPS
Endpoint URL	<TBC>

2.3 Interface Authentication

API authentication would be set to Open to all to allow frontend code to consume this API. No credentials would be required for this client application.

2.4 Business Rule

Course Filter Rule

This API interface returns only active NYP courses info to the NYP websites.

Note: Active means the course is published in the sTMS course catalogue. A published course without an active intake would also be published in the course catalogue. However, if the course intake is set to be non-visible to applicants, the intake will not appear in the course catalogue.

Default Filter

- Institution is NYP, Course catalogues status is published.

3. Interface Fields

3.1 Course Info

3.1.1 Get Course Info Launch Parameters and Query Course Info Criteria Fields

[Get Course Info \[#2.2.2\]](#) launch parameters and [Query Course Info \[#2.2.3\]](#) criteria fields are sharing the same field definition in the table below.

Name	Description	Data Type
AreaOfInterest	Name of <i>Area of Interest</i> according to configuration in sTMS (global). Default to blank means "All".	String(\$nvarchar(max))
CourseCategory	Code of <i>Course Category</i> according to configuration in sTMS (global). Default to blank means "All". Refer to 8. Appendix for full course category list	String(\$nvarchar(max))
CourseType	Code of <i>Course Type</i> according to configuration in sTMS (global & NYP). Default to blank means "All". Refer to 8. Appendix for full course type list.	String(\$nvarchar(max))
Branch	Code of <i>Branch</i> according to configuration in sTMS (NYP). Default to blank means "All".	String(\$nvarchar(max))
School	Code of <i>School</i> according to configuration in sTMS (NYP). Default to blank means "All".	String(\$nvarchar(max))
Status	Course Application Status (Note that all courses are active and published) Available values: <i>0: all</i> <i>1: Open for Application: Available open intakes for students' application</i> <i>2: Closed registration and available for interest sign up - Allows applicants to register for interest only and has not reached registration date.</i> Default to blank which means 0.	Int
StartDateFrom	Start of course start date range. Default to blank means "All". <i>Format: dd-MM-yyyy</i>	String(\$nvarchar(max))

StartDateTo	End of course start date range. <i>Format: dd-MM-yyyy</i> <i>This field is optional and can be left blank.</i>	String(\$nvarchar(max))
Scopes	Field scopes of course info returned in response. Available values: <i>BasicInfo</i> <i>AboutInfo</i> <i>StructureInfo</i> <i>ScheduleInfo</i> <i>RequirementInfo</i> <i>FinancialMatterInfo</i> <i>OtherInfo</i> Default to "BasicInfo&AboutInfo" if parameter not set.	String(\$nvarchar(max))
PageNumber	Page number, default to 1.	Int
PageSize	Page size, default to 10. The max value is 100 due to technical and performance limitation.	Int

3.1.2 Course Result Fields

3.1.2.1 Basic Info Fields

Name	Description	Data Type
CourseCode	Course code.	String(\$nvarchar(max))
CourseName	Course name.	String(\$nvarchar(max))
PublishTime	Course catalogue publish time.	String(\$dd-MM-yyyy hh:mm:ss)
CourseType	Course type code.	String(\$nvarchar(max))
CourseCategory	Course category code.	String(\$nvarchar(max))
BranchCode	Branch code.	String(\$nvarchar(max))
CourseDetailLink	Course detail URL for sTMS.	String(\$nvarchar(max))

Status	Course Application Status. (Note that Courses are active and published) Available values: 1: <i>Open for Application: Available open intakes for students' application</i> 2: <i>Closed registration and available for interest sign up - Allows applicants to register for interest only and has not reached registration date.</i>	Int
--------	--	-----

3.1.2.2 About Info Fields

Name	Description	Data Type	NYP Website Fields
ImageUrl	Course image Url.	String(\$nvarchar(max))	Image
Objective	Course objective	String(\$nvarchar(max))	Course Aim
Description	Course description	String(\$nvarchar(max))	About the Course
TargetAuds	Specifies the target audience of the course	String(\$nvarchar(max))	Target Participants
AdditionalInfo	Course additional information may contain the following information: Future Progression Career Opportunity General Intake Info (e.g. 2 intakes per year) Testimonial Trainer profile	String(\$nvarchar(max))	Key benefits of programme

3.1.2.6 Financial Matter Info Fields

Name	Description	Data Type	NYP Website Fields
FeePayables	Course fee payable info	Array of [FinancialMatter.FeePayables]	Course Fees and Funding
GST	GST remarks to informs the applicate. Example: The course fees payable above are inclusive of 9% GST rate.	String(\$nvarchar(max))	NA
PaymentOption	Course payment option.	String(\$nvarchar(max))	NA
AllowPaymentBy	Details of eligible grants and payment methods available for the course. Example: SkillsFeature Credit; Credit/Debit card.	String(\$nvarchar(max))	NA
OtherFee	Any other supplementary fees not included in course fees	String(\$nvarchar(max))	List of Supplementary Fees
Policy	Details of refund and withdrawal policy	String(\$nvarchar(max))	Refund Policy & Important Information
FundingScheme	Details of the funding schemes will be shown here if any funding scheme is available	String(\$nvarchar(max))	Funding
FinancialMatter.FeePayables			Fees
FeeGroupType	Fee payable group type. E.g., MES (Singapore Citizen aged 40 years and above); SC; SPR; SC SME; SPR SME	String(\$nvarchar(max))	
Fees	Fee details	Array of [FinancialMatter.FeePayables.Fees]	
FinancialMatter.FeePayables.Fees			
CourseFeeType	Course fee type. Example: PDC1; PDC2; Full course fee	String(\$nvarchar(max))	
Amount	Fee amount	Number	

Financial matters

Course fee payable (incl. GST)

	PDC1	PDC2	Total course fee
Full course fee	S\$2,099.34	S\$4,381.65	S\$6,480.99
Singapore Citizen	S\$209.93	S\$438.17	S\$648.10
Singapore Citizen	S\$314.90	S\$657.25	S\$972.15
Singapore	S\$839.74	S\$1,752.66	S\$2,592.40
Singapore Citizen	S\$216.80	S\$452.50	S\$669.30
Singapore Permanent Resident	S\$251.14	S\$524.16	S\$775.30

GST

Please be noted that course fee payable above are inclusive of GST(7%).

Payment mode

Payment needs to be completed before course start on each semester

Allow payment by

SkillsFuture Credit; Credit/Debit card.

Nett supplementary fees payable

- Lab fee \$566.07, subject to GST, fee payable \$605.70, Allow payment by Skillsfuture Credit, Credit Card. (for foreigners)
- Student Union fee \$100.00, not subject to GST, fee payable \$100.00, Allow payment by Credit Card.

Refund and withdraw policy

3.1.2.7 Other Info Fields

Name	Description	Data Type	NYP Website Fields
Video	Course video Url	String(\$nvarchar(max))	NA
VideoTitle	Course video title	String(\$nvarchar(max))	NA

3.2 Course Condition

3.2.1 Course Condition Fields

Name	Description	Data Type
AreaOfInterests	Value list of Area of interest configured in sTMS (global level)	Array of string
CourseTypes	Master Data list of Course types configured in sTMS (global level and NYP)	Array of Master Data
CourseCategories	Master Data list of Course category configured in sTMS (global level)	Array of Master Data
Branches	Master Data list of Branches configured in sTMS (NYP)	Array of Master Data
Schools	Master Data list of Schools configured in sTMS (NYP)	Array of Master Data

3.2.2 Master Data Fields

Name	Description	Data Type
Code	Code of master data	String(\$nvarchar(max))
Name	Name of master data	String(\$nvarchar(max))

4 Error Handling

The table below provides the detailed error listing and handling procedure. This list of error codes is not exhaustive.

Error Code	Description	Handling Procedure
400	Bad Request	Invalid Parameter detected in Http Request, please verify the request parameters.
404	Resource not found	Check if the API endpoint URL is correct, or raise a ticket to sTMS support for further investigation.
500	Internal server error	Raise a ticket to sTMS support for further investigation.

5 Constraints

No.	Constraints
1	When an applicant clicks "Read More" button for specific course in NYP websites, control will be transferred to the specific course in STMS for course information, application or register for Interest.
2	The interface API performance obeys the sTMS API performance, where response time should not exceed 10s for 95% of the time. Please refer to Section D Technical Requirement for detailed response time..
3	Date and Datetime fields in this document are SG Standard Time (SST), UTC +8.

6 Interface Schemas

Interface Schemas are detailly described in the following table:

GET /nyp/GetCourseInfo Get published course catalogue information with parameters.	
Parameters	
Name	Description
AreaOfInterest	Name of Area of Interest according to configuration in sTMS (global).
string (query)	AreaOfInterest

7 Interface Fields Mapping List

The mapping relationship between sTMS course catalog fields and NYP CET website fields are described in the following table:

sTMS Fields		NYP Website Fields
About	Course Objectives	Course Objectives
	Course Description	Course Description
	Target Audiences	Target Audiences
	Course additional information (Future Progression & Trainer Profile & etc.)	Key benefits of programme
	Course Certificate	Certification
Course Structure	Module Name & Description	Course Outline
	Assessment Type	Course delivery methods and assessment
Course Schedule	Course Schedule	Course Schedule
	Apply	Apply Now
Entry Requirements	Prerequisite	Admission Requirements
Financial Matters	Course Fee Payable	Fees
	GST	
	Know more about funding scheme	Funding
	Payment Mode	
	Allow payment by	
	Nett Supplementary fees payable	List of Supplementary Fees
	Refund and withdrawal policy	Refund Policy & Important Information
	Know more about funding scheme	
Additional Information	Additional Information	Video

8 Appendix

8.2 Value list of Course Category and Course Type

The table below would be aligned with the prevailing Course Category / Course Type fields as harmonised across the IHLs. Re-mapping may be required should there be subsequent changes.

Course Category Code	Course Category Description	Course Type Code	Course Type Description	NYP Course Type
PTD	Part-time Diploma (PTD)	FQ	Academic Full Qualification (FQ)	Diploma Programme (FQ)
		MC	Academic Certificate (MC)	Diploma Programme (MC)
		SBMC	Academic Modular (SBMC)	Standalone SBMC
SD	Specialist Diploma (SD)	FQ	Academic Full Qualification (FQ)	Specialist Diploma Programme (FQ)
		PDC	Academic Certificate (PDC)	Specialist Diploma Programme (PDC)
		SBMC	Academic Modular (SBMC)	Standalone SBMC
AD	Advanced Diploma (AD)	FQ	Academic Full Qualification (FQ)	Advanced Diploma Programme (FQ)
		PDC	Academic Certificate (PDC)	Advanced Diploma Programme (PDC)
		SBMC	Academic Modular (SBMC)	Standalone SBMC
DC	Diploma Conversion	FQ	Academic Full Qualification (FQ)	NA
		PDC	Academic Certificate (PDC)	Diploma (Conversion) Programme (PDC)
		SBMC	Academic Modular (SBMC)	Standalone SBMC
CC	Certifiable Courses	SFS	SkillsFuture Series	NA
		SFDC	SkillsFuture Digital Confidence	NA
		SFDW	SkillsFuture Digital Workplace	NA
		SGUSP	SGUnited Skills Programme (SGUS)	SG United Skills Programme (SGUS) – Formal, SG United Skills

			SGUnited Mid-Career Pathways Programme (SGUP)	Programme (SGUS) - Non-Formal
		SGUMCPP	SGUnited Mid-Career Pathways Programme	NA
		SCTP	SkillsFuture Career Transition Programme	NA
		CCP	Career Conversion Programme	CCP (Nursing)
		WLB	Work-Learn Bootcamp	NA
		COCSFS	Certificate of Competency - SkillsFuture Series	NA
		GE	General Education	NA
		JIC	Joint Industry Certificate	NA
		TTT	Train The Trainer	NA
		WSQ	Workforce Skills Qualification	WSQ Course
		WSQFQ	Workforce Skills Qualification (WSQ) Full Qualification	NA
		WSQM	WSQ modular and Non-WSQ short courses	NA
		TNP	Train-and-Place Programme (TnP)	NA
		CSC	Certifiable Short Courses	Certificate Programme (Formal, Customised), Certificate Programme (Formal, Public, Non-Funded), Certificate Programme (Non-Formal, Customised), Work-Learn Bootcamp
NCC	Non-Certifiable Courses	SFC	SkillsFuture Series	SkillsFuture Series, SkillsFuture Series – Advanced, SkillsFuture Series – Basic, SkillsFuture Series – Intermediate, SkillsFuture Digital Confidence, SkillsFuture Digital Confidence – Basic,

				SkillsFuture Digital Confidence – Essentials, SkillsFuture Digital Workplace
		SGUS	SGUnited Skills (SGUS) Programme	SG United Skills Programme (SGUS) – Formal, SG United Skills Programme (SGUS) - Non-Formal
		CCP	Career Conversion Programme	NA
		WLB	Work-Learn Bootcamp	Work-Learn Bootcamp
		WSC	Work Study Certificate (WSC)	NA
		NWSQC	Non-WSQ courses	Non-WSQ courses
		NCSC	Non-Certifiable Short Courses	Public Short Course, Public Short Course (NSA), Public Short Course (SFC & NSA), Public Short Course (SFC)
		SEM	Seminars	Seminar - For External Participants, Seminar - For NYP Staff
CP	Customised Programme	CCC	Certifiable customised Courses	Advanced Diploma Programme (Customised), Specialist Diploma Programme (Customised), Diploma Programme (Customised)
		NCCC	Non-Certifiable customised Courses	NA
		NFC	Non-funded courses	Customised Short Course (Non-Funded)
WSP	Work-Study Programmes	WSCLTPD	Work-Study Certificates Leading To Part-Time Diploma	NA
		WSPDSD	Work-Study Post-Diploma Specialist Diploma	Work-Study Programme - SDip (PDC)
		WSPDLTSD	Work-Study Post-Diploma Leading To Specialist Diploma	NA
		WSPDAD	Work-Study Post-Diploma Advanced Diploma	Work-Study Programme - ADip (PDC)

		WSQ	Workforce Skills Qualification (WSQ)	Work-Study Programme - WSQ
		WSPDDC	Work-Study Post-Diploma Diploma Conversion	Work-Study Programme - Dip(Conversion) (PDC)
		NA	NA	Work-Study Programme - Diploma (MC)
		NA	NA	Work-Study Programme - other providers e.g. SUSS
