1. Introduction

1.1 Purpose of this document

This Interface Functional Specification (IFS) is to provide the agreed baseline of communication requirements and detailed technical specification between the SaaS shared Training Management System (sTMS) and Republic Polytechnic Alumni Portal (RAP). This interface will be a 2-way interface between the systems. The purpose of this interface is for RP alumni to enjoy alumni discounts when applying for specific courses in sTMS and update RAP alumni records when students graduate from sTMS. It is required to check Alumni status in RAP in real time and import sTMS student information to RAP when students graduate.

1.2 Intended Audience

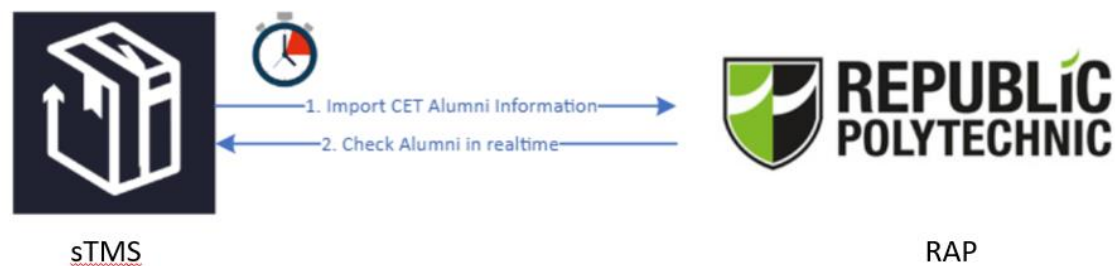

This technical document is used for system communication. Therefore, the intended audiences are the stakeholders of both sTMS and RAP.

2. Technical Overview

There are 2 roles involved in the interface diagram.
